Care instructions: To keep your vanity unit in the best condition, we advise the following suggestions. Although our vanity tops are hardwearing, prevent placing sharp objects or excessive heat on the surface as this will cause irreversible damage. Care should also be taken not to drop any heavy objects onto the top as the surface may crack. For general cleaning, use a damp, soapy cloth. We also advise dusting often using a clean, soft, dry and lint-free cloth. All spills, including corrosive liquids and make-up should be wiped off immediately without the use of bleach products, scouring pads or multi-surface cleaners. Avoid leaving water to lie on the surface as our bathroom vanity units are water-resistant but not waterproof.
