Care instructions: Vacuum regularly on a low-power

setting, using a vacuum cleaner

without a beater brush, to prevent debris from

settling into roots

of the fibres. For best results, vacuum from

different directions,

making several passes over the area. Shedding is a

natural

characterstic of the handmade rugs which reduces

over a period of

usage. Avoid direct and continuous exposure to

sunlight. Use rug

protectors under the legs of heavy furniture to

avoid flattening

piles. Do not pull loose ends. Clip them with

scissors to remove.

Turn carpet around occasionally to equalise wear.

Remove spills

immediately; if liquid, blot with clean, un-dyed

cloth by pressing

firmly around the spill to absorb as much as

possible. For

hard-to-remove stains, professional rug cleaning

is recommended.

Store your rug by rolling it front side out and

wrapping in cloth

for protection. Do not fold or store rug in an

airtight plastic

bag. Place in dry, well-ventilated area. Use of a

rug pad is recommended
