Assembly required: No
Care instructions: Vacuum regularly on a low-power setting, using a vacuum cleaner without a beater brush, to prevent debris from settling into roots
of the fibres. For best results, vacuum from different directions,
making several passes over the area. Shedding is a natural characterstic of the handmade rugs which reduces over a period of
usage. Avoid direct and continuous exposure to sunlight. Use rug
protectors under the legs of heavy furniture to avoid flattening
piles. Do not pull loose ends. Clip them with scissors to remove.
Turn carpet around occasionally to equalise wear. Remove spills
immediately; if liquid, blot with clean, un-dyed cloth by pressing
firmly around the spill to absorb as much as possible. For
hard-to-remove stains, professional rug cleaning is recommended.
Store your rug by rolling it front side out and wrapping in cloth
for protection. Do not fold or store rug in an airtight plastic bag. Place in dry, well-ventilated area. Use of a rug pad is recommended
