Care instructions: Vacuum regularly on a low-power setting, using a vacuum cleaner without a beater brush, to prevent debris from settling into roots of the fibres. For best results, vacuum from different directions, making several passes over the area. Shedding is a natural characteristic of the handmade rugs which reduces over a period of usage. Avoid direct and continuous exposure to sunlight. Use rug protectors under the legs of heavy furniture to avoid flattening piles. Do not pull loose ends. Clip them with scissors to remove.

Turn carpet around occasionally to equalise wear.

Remove spills

immediately; if liquid, blot with clean, un-dyed cloth by pressing firmly around the spill to absorb as much as possible. For

hard-to-remove stains, professional rug cleaning is recommended.

Store your rug by rolling it front side out and wrapping in cloth

for protection. Do not fold or store rug in an airtight plastic

bag. Place in dry, well-ventilated area. Use of a rug pad is

recommended
