Bernat Daviu studied Fine Art at Central Saint Martin's and is based in Barcelona. *'Every time I go up to the terrace at Soho House Barcelona, I am impressed by the intimidating presence of the large Virgin of La Mercè, patron of Barcelona, on the dome of the church behind the House,'* says Daviu. *'The Virgin seems to be staring at the people hanging out on the terrace. I made an image of a cocktail with the colours of the building's facade. I included two olives in the drink, which at the same time function as the eyes of La Mercè gazing around.'* Kate Bryan, head of collections at Soho House, says: *'Bernat Daviu's practice encompasses painting, costume-design, performance and video. He explores affinities and paradoxes that oscillate between the absurd, the ironic and the romantic.'*
