Tala 6W Globe LED, US

\$12 Regular price

\$10 Member price

You'll find Tala bulbs in the lamps, wall lights and chandeliers in many of our Houses. Tala is on a mission to become the definitive zero-carbon lighting brand. Made from high quality fully recyclable materials Tala LED bulbs use 90% less energy than incandescent equivalents and have a lifespan of between 5-10 years in the home, this efficiency and longevity reduces energy bills and lowers the users' carbon footprint. Together with reforestation partners, Tala have planted over 40,000 trees worldwide.

The Globe light bulb by Tala features eight exposed sapphire substrate filaments, which come together in this traditional Edison-style shape. The effect is a warm, ambient light in a E26 base that makes the Globe ideal to fit into new or existing fixtures. Suitable for display or behind a shade, the Globe is complete with energy efficient LED technology, lasting an average of 5-10 years based on daily usage.

Dimensions
