Product details

The Dawson coffee table is our new way of showcasing burl in the home. Inspired by Soho House Paris and the classic aesthetic seen in every room, this piece displays the large, open swirl patterns of ash burl to bring warmth and depth to any interior scheme. The rounded, oblong shape adds softness with solid lip detail and V grooving around the perimeter for clean, sculptural lines, while the high-gloss lacquer finish creates lustrous shine. Foot glides subtly raise this coffee table off the floor to create an instant focal point in the room. Each of these coffee tables has natural variations in the wood, making each piece unique.

Details

Assembly required: No

Care instructions: For general cleaning, wipe with a damp soft clean cloth. Ensure the cloth is damp, not soaking wet and wipe in down strokes not

circular motions. Avoid abrasive cleaners such as bleach-based

products or steel wool as this will damage the lacquer finish.

Observe regular dusting with a dry clean soft cloth to prevent

build up. To prevent damage, keep your table dry, and do not place

hot pans, plates or mugs directly onto the table; instead use

placemats and coasters. Avoid placing heavy items directly onto the

table and use rubber mats or feet to prevent scratching.
