Our first fully freestanding bar, this style is designed to let you sit and serve drinks across its Dark Emperador marble top. Its curved silhouette is carved from scalloped panels of olive ash burl.

Inspired by Soho House Rome, the freestanding Locanda bar showcases a mix of materials. Made from olive ash burl, the panels of elongated, scalloped detailing that curve around the front and sides contrast against a dark-stained oak base.

The curved top is carved from Dark Emperador marble, sourced from Spain and characterized by earthy brown hues flecked with light-colored veining. Lit by LED bulbs that sit just below the surface, the external shelf is made from Black Marquina marble, while two doors on the front enclose an adjustable shelf and glass storage space.
